RAS BIHARI BOSE SUBHARTI UNIVERSITY, DEHRADUN

REVIEW PARAMETRES FOR RESEARCH PROPOSALS/STUDIES

The research proposals/studies shall be assessed/reviewed as per the stipulated & prescribed norms/ parameters set by accredited regulatory bodies (UGC, ICMR, ICSSR etc.)
 The jurisdiction for review by the RDC&RB shall comprise of the following key parameters:

Key Sub-heads	Parameters (Description)
1. Basic information	As per Section A of Application Form for Review (ICMR)*
2. Rationale of the study/proposal	Clear & reasonably justified with reference to existing/published literature.
3. Structure of the study/ proposal	Clear statement of goal, objectives, activities, expected outcomes, process & outcome indicators including for monitoring/evaluation.
4. Research ability	Sound Research question, 'Researchable' hypothesis & scope of testing the same.
5. Viability/ Usefulness/ Relevance	'Thrust' areas (by sponsors / funders) of research addressed ;potential for contributing to existing knowledge, scope for scaling up, enhancing quality of life (QOL).
6. Study Design	As per section Section B (Research related information), Section C (Proposal related information) Section D (Other issues), Reasons, if any, for expedited/exempted review etc.(Enclosed) *
7. Implementation plan	
8. Outcome Analysis/ Data Management	Data type, presentation (as per goal, objectives), choice of statistical tests, if any for comparison, hypothesis testing, etc.
9. Reference/ Bibliography	Recent (since last 10 years); conventionally accepted style of referencing, (preferably Vancouver).
10. Budget	Rational, cost effective.

* for proposals from Health Sciences.

Name & Signature of the Principal Investigator
